1	Background	7
1.1	Need for an inspection manual to implement real-time monitoring	8
1.2	About continuous monitoring systems	9
1.3	Legal provisions	10
1.3.1	Basis for installation of CEMS and CEQMS	11
1.3.2	Parameters to monitor	12
1.3.3	Enforcement of continuous monitoring data as legal evidence.....	12
2	Types of inspection	16
2.1	Initial or routine inspection	16
2.2	Inspection based on frequency of violations as per real-time data	16
2.3	Inspection if manipulation of the real-time data is suspected.....	17
3	Preparing for inspection.....	18
3.1	Industry/facility overview	18
3.2	Industry requirements and compliance information.....	19
3.3	Pollution treatment and monitoring facilities.....	19
4	Inspection procedure	21
4.1	General questionnaire	21
4.2	Location of installation.....	25
4.3	Inspection of CEMS equipment.....	28
4.3.1	PM CEMS	29
4.3.2	Inspection of gaseous CEMS.....	32
4.3.3	Inspection of CEQMS	34
4.4	Inspection of data acquisition and handling system	38

5	Preparation of inspection report	40
5.1	Information about the plant.....	40
5.2	Information about inspection	41
5.3	Installation overview and visual observation (unit-wise)	41
5.4	Location of installation (unit-wise).....	45
5.5	Inspection of installed equipment (unit-wise).....	47
5.6	Inspection of data acquisition system (unit-wise)	55
5.7	Inspection summary and guidance for corrective action.....	57
6	Industry's self-regulation and self-assessment	59
	Notes and references	61
