

CONTENTS

FOREWORD p07

When data asks the questions

STATE OF DEVELOPMENT p09

GLOBAL ECONOMIC RISKS p10

Extreme weather events have remained the top economic risk in the past four years

SUSTAINABLE DEVELOPMENT GOALS p11

India faces major challenges in nine of the 17 SDGs

SDG PREPAREDNESS OF STATES p15

Bihar and Jharkhand are least prepared to meet the SDGs by 2030

ENVIRONMENTAL CRIMES p20

Courts need to dispose of 132 cases a day to clear the backlog of over 48,000 cases in a year

STATE OF STATES p25

GOOD GOVERNANCE RANKINGS p26

15 state governments score below national average on the rankings

STATE OF PANDEMIC p39

Newer targets p40

India is relaxing lockdown despite rising daily cases

The great meltdown p41

Containment measures would reduce global GDP by 2 per cent per month

Job crash p42

Almost 1.6 billion informal economy workers are significantly impacted

Food insecurity p44

Covid-19 can double the global food insecure population by end of 2020

A poorer world p45

India to see the most new poor due to the outbreak

p47 STATE OF MIGRATION

p 48 Migration for employment

While men account for bulk of main workers, women have a higher share in marginal workers

p50 New migrants

There has been a 23 per cent increase in the population that has migrated for work in the decade before the 2001 and 2011 Census

p51 Internal displacement

India saw over 5 million new displacements due to disasters in 2019

p54 Shramik trains

5.5 million migrants have used the train to return home in May

p57 STATE OF AGRICULTURE

p58 Farmers Suicides

10 states/UTs record an increase in farmer suicides between 2017 and 2018

p60 Fishing communities

Over 67 per cent families dependent on marine fisheries are under poverty

p61 Livestock population

Uttar Pradesh sees an 118 per cent increase in rural stray cattle population

p67 STATE OF LAND

p68 Wasteland

While India's wasteland has reduced by 1.5 per cent, it has increased in 11 states and UTs

p83 STATE OF ECONOMY

p84 Unemployment

One in every 5 working urban population is without a job

p88 Performance of MGNREGA

35 million people have demanded work in May

CONTENTS

STATE OF WATER p107

River basins p 108

Of the 21 river basins, five are absolute water scarce (per capita water availability below 500 m³)

Groundwater availability p 110

Groundwater dependency has increased in 23 states and UTs between 2013 and 2017

Groundwater contamination p112

More than 57 per cent of India's groundwater is contaminated with nitrate, fluoride and arsenic

Water conflicts p114

India recorded 118 per cent increase in water conflicts between 2000-09 and 2010-19

STATE OF FORESTS p117

Forests cover p118

Forest cover has shrunk in 34 per cent districts

Bamboo plantations p120

13 states have recorded a decrease in bamboo bearing area

STATE OF AIR p127

Air Pollution p128

Just 53 of the 122 non-attainment cities conduct real-time air quality monitoring

STATE OF CLIMATE p131

Seasonal variations p132

India recorded its warmest ever monsoon season in 2019

Extreme weather events p134

19 major extreme weather events claimed 1,357 lives in 2019

Heat waves p138

69 per cent increase in the number of heat wave days between 2013 and 2019

Cold waves p139

2018 had an extremely cold winter with the most casualty in the past seven years

Climate commitments p140

India's climate commitments are much more ambitious than China, US and most other countries

p143 STATE OF ENERGY

p144 Performance of Discoms

There have been four bailouts since 2001 and the last three happened in just eight years

p149 STATE OF BIODIVERSITY AND WILDLIFE

p150 Threatened flora

Of the nearly 50,000 known plant species in India, 23 per cent are endemic to the region

p151 Threatened fauna

305 fish species are threatened in India

p152 Tiger conservation

Tiger population has increased by 747 between 2014 and 2018, but their net area has shrunk by 179 km²

p158 Eco-tourism

There has been a 97 per cent increase in nature-based tourists in India between 2008-09 and 2014-15

p161 STATE OF HABITAT

p162 Household waste

80 per cent of rural households have no arrangements for garbage collection

p164 Water supply

Piped water coverage in rural households of four states and UTs recorded a dip between 2012 and 2018

p167 STATE OF WASTE

p168 Municipal solid waste

5 states account for nearly 50 per cent of the India's municipal waste burden

p170 Biomedical waste

40.5 tonnes per day of biomedical waste goes untreated in the country

p171 Hazardous waste

5 states are responsible for 5.5 million tonnes per annum waste generation
