

CONTENTS

INTRODUCTION

- Africa: Environment and poverty nexus 07

CHAPTER 1: CLIMATE CHANGE 14

- Climate change is more rapid in Africa
- Internal displacement and migration to rise
- Climate emergency sidetracks development agenda
- How climate emergency impacts water resources and food security
- Climate emergency and the marine ecosystem and economy
- Economic collapse imminent in the changed climate
- Climate mortality

CHAPTER 2: BIODIVERSITY 62

- Mass extinction in Africa
- Protected areas, development challenge and the opportunity to eradicate poverty
- Sustainable wildlife trade
- Access and benefit sharing debate and discourse

CHAPTER 3: LAND & AGRICULTURE 100

- Why Africa is food insecure
- Russia-Ukraine war impact on food systems
- Agriculture expansion and environmental challenges
- Desertification spreading faster, and wider
- New seed trade regimes and viability of indigenous system

CHAPTER 4: AIR POLLUTION & MOBILITY 142

- State of air pollution in Africa
- Air pollution emerges as the new killer
- The need to curb diesalisation
- Africa is the world's scrap yard of used vehicles
- Why Africa need to leapfrog to zero emission electric vehicles
- How African countries adopting new policies to popularise electric vehicles

CHAPTER 5: ENERGY 174

- Africa's energy demand rises exponentially
- New gas rush in the continent
- Renewable energy and its critical link to future growth

CHAPTER 6: HEALTH 196

- Living longer, but not healthy
- Climate emergency and effects on health
- Challenge of treating the neglected tropical diseases
- COVID-19 pandemic and its future impacts
- Antimicrobial resistance undoes the continent's impressive progress on health sector
- State of sanitation in Africa

CHAPTER 7: WATER 236

- Africa's predominant daily occupation – collecting water
- The unholy nexus: water, poverty and disease
- Climate emergency makes water scarcity a tough challenge

CHAPTER 8: WASTE 260

- Africa will have the world's highest waste generation
- Waste collection in Africa is one of the lowest in the world
